Conference Report on Senator Lodge's Immigration Bill.

IT MAY BE VETOED IF PASSED.

North German Lloyd Company Scored For Sending Alleged Threats to Senators—Teller Offers an Amendment to the Nicaragua Canal Bill—Diplomatic and Consular Bill Passes the House.

WASHINGTON, Feb. 3.—The feature of the senate yesterday was a very spirited debate on the conference report on the immigration bill. Mr. Gibson of Maryland opposed the report and Mr. Lodge defended it. After two hours struggle the report went over and the Nicaragua canal bill was taken up. Mr. Teller of Colorado also entered the debate in opposition to the measure.

Mr. Lodge called up the immigration bill and defended the conference report and in vigorous terms arraigned the steamship lines opposing this measure, especially the North German Lloyd. This company, subsidized by a foreign government, not only had its agents at the capitol, but had their agents telegraph threats to senators and members. From this same source came reports that the president would veto this bill. No president would make such a statement before seeing a bill. It came from the same quarter as that sending telegrams to Congress. This same steamship company will carry its raid from the capitol to the white house. When a great foreign corporation sought to take senators by the throat it was time to limit this insolvent use of corporate power. Mr. Lodge resented the statement of Mr. Gibson that the bill would separate man and wife and renew the cruelties of slave days. The bill sought to make a broad limitation against illiteracy and if an exception was made as to wives it would have to be made as to brothers, sisters, etc.

At the close of Mr. Lodge's remarks Mr. Morgan called up the Nicaragua canal bill, and Mr. Teller (Rep., Cal.) proposed amendments to the bill, as follows:

The bonds heretofore mentioned shall not be guaranteed, and no money shall be expended in the construction of the canal until a survey has been made by a competent board of engineers, to be appointed by the president of the United States, and a complete plan prepared for the entire work and such plan shall be approved by the president of the United States. Should it appear from the report of said board of engineers that the cost of said canal will be more than \$100,000,000, the president shall reject the plan, and the bonds heretofore provided shall not be guaranteed, and the government of the United States shall not assume any liability in the construction of said canal.

During the day Mr. Roach (Dem., N. D.) presented the credentials of his colleague, Mr. Hansbrough, for another term.

In the House.

WASHINGTON, Feb. 3.—The day in the house was very dull. The whole day being devoted to debate on appropriation bills. The diplomatic and consular bill was passed and considerable progress made with the District of Columbia bill. The bill as passed carries \$1,673,708. Resolutions arranging for the formal canvassing of the electoral vote of the last presidential election on Wednesday, Feb. 10, were adopted.

VILAS' SUBSTITUTE.

Wisconsin Senator's Inter-oceanic Canal Commission Investigation.

WASHINGTON, Feb. 3.—Senator Vilas yesterday presented a substitute for the Nicaragua canal bill, which he gave notice he would offer at the proper time. It provides for a commission to be composed of one member of the engineer corps of the army, a naval engineer and three other citizens of the United States. It is to be known as the inter-oceanic canal commission, and the members are to be paid at the rate of \$600 per month. They will visit and especially inspect the lines or routes projected or which may seem to said board to be sufficiently practicable to demand an inquiry for an inter-oceanic canal to connect the Atlantic and Pacific oceans. They are required to make surveys, etc., to determine the most feasible, practical and economical route for the canal. For the purposes of the bill \$1,000,000 is made available by appropriation.

They complained that Secretary Herbert's report did them an injustice, taking special exception to his estimate of the cost of labor, which he declared to be 40 per cent too low. The secretary was present and defended his report.

IT WAS DONE IN OLNEY'S OFFICE.

It Must Yet Be Ratified by Venezuela's Congress Before It Is in Effect—Chief Justice Fuller and Justice Brewer Two of the Arbitrators—The Historic Pen Used in Signing.

WASHINGTON, Feb. 3.—Sir Julian Pauncefote, the British ambassador, and Senor Jose Andrade, the Venezuelan minister to Washington, late yesterday signed the treaty providing for the settlement by arbitration of the long-standing dispute over the boundary between Venezuela and British Guiana, which has not only ruptured the relations between the two principals and kept them apart diplomatically for years, but has threatened to involve the two great English-speaking nations in hostilities. The treaty was completed several days ago, so far as all the details were concerned, except the insertion of one name—a British jurist. Some difficulty had been experienced in

STATE CAPITAL BURNED.

Pennsylvania Legislative Halls In Total Ruins From Fire.

HARRISBURG, Pa., Feb. 3.—The Pennsylvania state capital was destroyed by fire late yesterday, the legislative halls are in ruins and a new structure must rise from the ashes that has served as a meeting place of the Pennsylvania legislature since 1822. The flames within the short space of one hour ate up one million and a half dollars worth of property. The inefficiency of the Harrisburg volunteer fire department is generally blamed.

The house was in session and the senate was about to convene when the flames were discovered. The departments in the burned building were the following: Senate and house committee rooms, state librarian's room, senate chief clerk's room, smoking room, barber shop in senate, lieutenant governor's room, room of president pro tem, school department, house chief clerk's room, speaker of house room, resident clerk's room, two telegraph offices, room of the Harrisburg Legislative Correspondents association, pastor and folder departments, cloak rooms in both branches and the engine rooms. There is talk of finishing the session either in Pittsburgh or Philadelphia.

PRESIDENT JORDAN.

Bold Denunciation of Religious Revivals by Stanford University's Chief.

SAN FRANCISCO, Feb. 3.—President Jordan of the Stanford university, has stirred up orthodox Christians by his bold denunciation of religious revivals, which he declares are a species of intoxication that are no more worthy of respect than common drunkenness. During his remarks he said: "Wisdom means knowing what to do next; virtue means doing what comes next; science, as well as religion, means telling men how to grow better. Pessimism often comes from insanity. This is the deepest madness. Whisky, cocaine and alcohol bring temporary insanity, and so does a revival of religion—one of those religious revivals in which men lose all their reason and self control. This is simply a form of drunkenness, no more worthy of respect than the drunkenness which lies in the gutters."

The earnings of the last quarter, however, were but three-fourths of 1 per cent, or at the rate of but 3 per cent per annum. The decrease is attributed to the great depression in business. During past four weeks the stock declined from 68 to 50 offered yesterday.

Neuralgia of the Heart

Vanquished by Dr. Miles' Remedies.

MRS. SIDLEY, of Torrington, Conn., suffered from just such a complication of diseases as the extensive experience and investigations of Dr. Miles have proven, result from impairment of the nervous system. Mr. Jas. B. Sidley writes Oct. 25, 1895: "My wife was taken sick with neuralgia of the heart, nervous exhaustion and liver trouble. Although attended by two physicians she grew worse, until she was at death's door. I then began giving her Dr. Miles' Restorative Nervine and Dr. Miles' New Heart Cure, and she improved so wonderfully from the first that I at once dismissed the physicians. She now eats and sleeps well and does her own housework. We have recommended your remedies to a great many in our city, and every one has been very much benefited by them."

THE DISTRICT FREE PRESS recommends the renewal of the whipping post as punishment for minor offenses.

LYMAN J. GAGE cannot be accused of beating round the bush in his statement of what he proposes to do as secretary of the treasury.

The bill to prohibit football in the state is meeting with favor even among a great many college students who would be expected to be against such a measure.

The committees in the legislature are doing good work in killing bills before they come up for action by that body. Our legislators can do as good work for the state by killing unworthy bills as by enacting laws of value.

It is said that McKinley will recommend to congress the creation of a new cabinet position to be known as the department of commerce. At present all that is done through the commissioner of navigation in the treasury department.

The numerous bills before the legislature to increase the number of judicial circuits are not popular with the people in general. They look upon the increased expense to the taxpayers as not necessary and especially at this time.

The junketing trips to the several institutions of the state will come to an end after this legislature. It is well known that the real knowledge and workings of these legislative committees and that their visitations has usually been a farce. Another and a better arrangement will be made in all probability.

This bill to provide county homes for dependent children is one that will commend itself to many people. It is proper and right to make the very best citizens possible out of those who are unfortunate enough to have no homes of their own. To care for the dependent children properly the reformatory and penal institutions of the state would become less crowded in another generation.

There is a strong sentiment against the cigarette evil in this state and the legislature has the benefit of public sentiment in behalf of any legislation looking towards the restriction or prohibition of the sale and use of cigarettes. The bill however, as it passed the house is probably not wise in all its provisions and should be amended.

Cascarae stimulate liver, kidneys, and bowels. Never sicken, weaken or grip.

THE republicans of JACKSON county can not be well pleased with the arrangement to have Jackson and Washington counties compose a senatorial district. It is fair to both parties to leave Jackson and Lawrence together. A better arrangement can and ought to be made before the proposed bill becomes a law.

The appointments for cabinet positions already made by McKinley strengthen the opinion that he is equal to the situation which confronts him as the nation's chief executive. They are all able men selected with reference to their fitness for the position they are to fill. Thish as raised the president elect in the estimation of his countrymen and given them confidence that his administration will be marked by the same ability and careful foresight.

The building and loan associations of Indiana have become practically the savings banks of the people. The necessity for putting about them proper safeguards to protect the people from certain abuses which are now made under the pretext of by-laws is very urgent. But the legislature must not act hastily and thus jeopardize the interests of associations which are doing a legitimate business. Every bill before the legislature should receive the closest scrutiny and most careful consideration by our law makers.

The non-state school men are decidedly in evidence at Indianapolis this week. They are demanding so many important amendments to the general education bill now pending. These men recognize the objectionable features pointed out by the Republicans at different times. The friends of the measure never seemed to realize that there was a formidable opposition until this week. They were not inclined to want to make any concessions until yesterday. Now they have concluded that the non state school men have some influence and are ready to at least give them a respectful hearing.

GAGE'S GREAT ABILITY.

How He Got Ahead of New York Bankers.

The selection of Lyman J. Gage, of Chicago, to be Secretary of the Treasury, while not at all agreeable to the professional politician, is well received by all those who desire to see the Treasury Department wisely and ably administered. Already stories of some of Mr. Gage's clever achievements in life are being related, and one showing how he got ahead of the New York bankers in 1894 is worth repeating. It was just when gold was going out of the country at a pretty lively rate and banks were calling in the loans, expecting a great financial crisis. The Chicago banks, Mr. Gage's being foremost of the number, had something like \$25,000,000 on deposit in New York for exchange purposes. They desired to withdraw a large share of this, and accordingly asked their New York correspondents to remit something like \$16,000,000 of the amount deposited. They did not ask for gold—merely that the New York banks send them the currency.

But true the instincts of New York bankers wrote their Chicago brethren asking them to accept clearing house certificates in lieu of the currency. This the Chicago men refused to do, and thus the matter was at a standstill, the New Yorkers declining to remit the currency. The Chicago men were in a quandary, and held a meeting to decide upon a plan of action. The matter was left with Mr. Gage, all having confidence in his ability to get the money. And that confidence was not misplaced, for what did Mr. Gage do but order \$15,000,000 in gold from Europe, paying for the same with drafts on New York.

When it was announced in the newspapers that Chicago banks were receiving large shipments of gold direct from Europe the New Yorkers could not imagine how it had been done.

They could not see why Chicago should ship this gold direct instead of allowing their New York friends a chance to rake off one quarter of one percent for conducting the correspondence. But the New Yorkers found out how it had been done when the drafts began to come in, and they had to buy the gold from Chicago with which to pay the drafts. The New York bankers were very indignant at what they called such "reprehensible methods of doing business," and intimated that, in the language of the knights of the green cloth, Mr. Gage had not "played above the board."

However that may be, the transaction opened the eyes of the New Yorkers, and they readily agreed that Mr. Gage was a man to be reckoned with in all future transactions.

FOR THE REPUBLICAN.

It is now nearly thirty-two years since the surrender at Appomattox and now comes a bill to reimburse something.

Here is the matter referred to: Representative Cox, of Tennessee, yesterday introduced a bill, of which the first section follows: Whereas on the 10th day of April, 1865, the Army of Northern Virginia, commanded by Gen. Robert E. Lee, surrendered to the Federal army commanded by U. S. Grant at Appomattox, in the State of Virginia, and by the written terms of said surrender, artillery and cavalry officers were permitted to retain their horses, sidearms and baggage, and private soldiers their horses belonging to them.

After said surrender and after said soldiers were paroled and were on their way to their respective homes, Federal soldiers under orders in violation of the terms of the surrender, by force took from said paroled officers and soldiers their horses, baggage, and sidearms, which were never returned to them. Two hundred thousand dollars is appropriated by the bill to reimburse the Confederate soldiers or their heirs, of such violation of the agreement.

I don't believe it is true. If the congressman from Tennessee is correct in his statement, this should have been attended to long ago. It looks a little strange upon the face of it, and if he is mistaken censure him at once.

IT WAS A SLOW DAY

Little Business of a Final Nature Transacted by the Legislature.

LEGISLATIVE JUNKETING BILL.

It Becomes a Law So Far as the Senate Is Concerned—Duncan's Bill for Auditing Court Accounts Falls For Want of a Constitutional Majority—House Pharmacy Bill.

INDIANAPOLIS, Feb. 8.—Little business of a final nature was transacted by the legislature Tuesday, though the house engaged in two important discussions, one upon a general pharmacy bill and the other upon the labor arbitration bill. Both were upon second reading and though very strong efforts were made to load each bill up with amendments these were fought off and the bills went through to engrossment practically as they were drawn by their authors. Some important house bills died upon committee reports in the morning. Among them were the Nicholson primary election bill and the bill to oust Superintendent Johnson of the feebleminded school.

The senate spent some time in discussing a contributory negligence bill which was finally advanced to engrossment and indulged in another long discussion upon Senator Houghton's bill to make the diplomas of other colleges than the State Normal school good for life license after teaching for eight years, which was finally killed. It passed the House bill for a visiting committee to do away with legislative junkets. Senator Duncan's bill providing for the appointment of an auditing board by the circuit court to audit the accounts of township trustees failed to pass the senate for want of a constitutional majority, the bill receiving 23 affirmatives and 20 negative votes. This does not kill the bill and it can be called up for passage at any time.

APPORTIONMENT BILL.

Republican Joint Caucus Agrees to the Subcommittee's Report.

INDIANAPOLIS, Feb. 8.—The Republican joint caucus Tuesday night adopted the amendments proposed to the election law heretofore published and the following legislative apportionment law.

Senatorial districts—Posey and Gibson; Vanderburgh; Vanderburg, Warrick and Pike; Spencer, Perry and Crawford; Dubois and Davies; Harrison and Floyd; Washington and Jackson; Clark, Scott and Jennings; Jefferson, Ripley and Switzerland; Franklin, Dearborn and Ohio; Bartholomew and Decatur; Greene, Monroe and Brown; Martin, Lawrence and Orange; Knox and Sullivan; Vigo; Vigo, Parke and Vermillion; Clay and Owen; Montgomery and Putnam; Hendricks and Boone; Marion 3; Marion and Morgan; Johnson and Shelby; Madison; Madison, Hancock and Rush; Henry, Fayette and Union; Wayne; Jay and Randolph; Delaware; Tipton and Hamilton; Grant, Grant, Blackford and Wells; Allen; Allen and Adams; Huntington and Whitley; Wabash and Fulton; Miami and Howard; Clinton and Carroll; Fountain, Warren and Benton; Newton, Jasper and White; Cass and Pulaski; Lake and Porter; Laporte and Starke; St. Joseph; Marshall and Kosciusko; Elkhart; Lagrange and Noble; Steuben and Dekalb.

Bill May Not Pass.

INDIANAPOLIS, Feb. 8.—There is some doubt as to the Republicans being able to get their apportionment bill through the house, where they have 53 votes and it requires 51 to pass a bill. There were 17 absent from the caucus and it is said 3 of these will vote against the bill as they believe their counties were unfairly treated.

Prison Boards.

INDIANAPOLIS, Feb. 8.—The joint Republican caucus Tuesday night decided to restore the appointment of the prison boards to the governor and that the boards should be non-partisan.

Failed to Oust Johnson.

INDIANAPOLIS, Feb. 8.—The bill to oust Alexander Johnson, superintendent of the feebleminded school, was killed Tuesday by the house on committee report.

Friends Indignant.

BUTLER, Ind., Feb. 8.—Friends of H. N. Coffinbury, who died suddenly at Garrett two weeks ago, are indignant at the reports sent out that he is not dead. It is said members of the Masonic fraternity attended the funeral, viewed the remains and helped seal the casket.

Alleged Trainwrecker Arrested.

NORFOLK, Ind., Feb. 8.—Bert Burton, a young man, was arrested here yesterday on the charge of wrecking a Chicago and Southwestern train. He is also wanted for larceny.

A few months ago, Mr. Byron Every, of Woodstock, Mich., was badly afflicted with rheumatism. His right leg was swollen the full length, causing him great suffering. He was advised to try Chamberlain's Pain Balm. The first bottle of it helped him considerably and the second bottle effected a cure. The 25 and 50 cent sizes are for sale by C. W. Milhous.

CHARLES W. SCHNECK
Died This Morning After an Illness of Three Weeks.
Charles W. Schneck died at 9:45 Wednesday morning, February 3, 1897, at his home a mile and a half west of Seymour, being within a few months of forty years of age. He was born at Jeffersonville, June 22, 1857, and he came here with his parents Louis Schneck and wife in 1866. He was married February 27, 1884, to Miss Sophia Hodapp. To them were born four children, three sons and one daughter, who with his wife survive him. Three weeks ago he was taken sick with the lagrippe, which a week ago produced brain trouble resulting in nervous prostration from which he died. He has been a successful farmer, and for the past eight or nine years has managed the Sugar Grove dairy and creamery. He has been a consistent member of the German M. E. church from childhood. He has been a useful citizen and his death in the prime of his life will be felt as a loss to the community. The funeral will be held at the German M. E. church Friday morning.

Street Cars Stopped.
Yesterday the street railway owned by John S. Crump at Columbus discontinued its service.
The Union insurance companies established an advance in insurance rates in all buildings where electric lights are used, which in many cases it double the former rate, and practically prohibits the use of electric light. The objection in the case of the street railway lighting is the use of current for lighting and street railway motors from the same generator. So while the electric street cars are not running this objection is removed, and the users of the street railway current will not be molested by the advanced insurance rate. If some satisfactory arrangement can be made to overcome this arbitrary ruling Mr. Crump will no doubt resume the operation of the electric cars.

Laundering the Air.
The air we breathe needs washing the same as everything else. After rain has been falling for some time the impurities in the air are found to diminish, and the satisfaction with which we breathe in the washed air after a good rainfall is an evidence that our senses bear testimony to its purification.

Bills are pending in both houses providing for a moderate increase in the army. Both measures recognize the advisability of increasing the infantry and artillery branches of the service. The house bill provides 6,000 men for the cavalry, 5,000 for the artillery, 16,000 for the infantry and 500 for the engineers. Those distributed in other branches of the army bring the total up to 30,000. The total in all branches is now 25,000. There is special reason for the increase in the artillery at this time, as the building of the sea-coast defenses with their great guns and mortars, will require many more men in this arm than can now be provided. If with our old and inadequate equipment in this respect, there was only a sufficient force of artillerymen. It is clear that with the new demands a larger force should be provided. It is wise that we should go forward with this work of sea-coast defense; but if these works are to be made effective we must have a competent force trained to handle them.

From the Clerk of the Circuit Court.
FERNANDINA, Fla., Feb. 28, 1896
Mr. J. GEORGE SCHURER, Druggist, City.
Dear George.—Please send me a bottle of Chamberlain's Cough Remedy. I would not feel easy if I knew there was none of this valuable Remedy in the house. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children.
Yours Respectfully, GEO. E. WOLFE.

WORK OF CONGRESS

Conference Report on Senator Lodge's Immigration Bill.

IT MAY BE VETOED IF PASSED.

North German Lloyd Company Scored For Sending Alleged Threats to Senators—Teller Offers an Amendment to the Nicaragua Canal Bill—Diplomatic and Consular Bill Passes the House.

WASHINGTON, Feb. 3.—The feature of the senate yesterday was a very spirited debate on the conference report on the immigration bill. Mr. Gibson of Maryland opposed the report and Mr. Lodge defended it. After two hours struggle the report went over and the Nicaragua canal bill was taken up, Mr. Teller continuing his remarks. Mr. Teller of Colorado also entered the debate in opposition to the measure.

Mr. Lodge called up the immigration bill and defended the conference report and in vigorous terms arraigned the steamship lines opposing this measure, especially the North German Lloyd. This company, subsidized by a foreign government, not only had its agents at the capital, but had their agents telegraph threats to senators and members. From this same source came reports that the president would veto this bill. No president would make such a statement before seeing a bill. It came from the same quarter as that sending telegrams to Congress. This same steamship company will carry its raid from the capital to the white house. When a great foreign corporation sought to take senators by the throat it was time to limit this insolvent use of corporate power. Mr. Lodge resented the statement of Mr. Gibson that the bill would separate man and wife and renew the cruelties of slave days. The bill sought to make a broad limitation against illiteracy and if an exception was made as to wives it would have to be made as to brothers, sisters, etc.

At the close of Mr. Lodge's remarks Mr. Morgan called up the Nicaragua canal bill, and Mr. Teller (Rep., Col.) proposed amendments to the bill, as follows:

The bonds heretofore mentioned shall not be guaranteed, and no money shall be expended in the construction of the canal until a survey has been made by a competent board of engineers, to be appointed by the president of the United States, and a complete plan prepared for the entire work and such plan shall be approved by the president of the United States. Should it appear from the report of said board of engineers that the cost of said canal will be more than \$150,000,000, the president shall reject the plan, and the bonds heretofore provided shall not be guaranteed, and the government of the United States shall not assume any liability in the construction of said canal.

During the day Mr. Roach (Dem., N. D.) presented the credentials of his colleague, Mr. Hansbrough, for another term.

In the House.
WASHINGTON, Feb. 3.—The day in the house was very dull the whole day being devoted to debate on appropriation bills. The diplomatic and consular bill was passed and considerable progress made with the District of Columbia bill. The bill as passed carries \$1,673,708. Resolutions arranging for the canvassing of the electoral vote of the last presidential election on Wednesday, Feb. 10, were adopted.

VILAS' SUBSTITUTE.
Wisconsin Senate's Inter-oceanic Canal Commission Investigation.

WASHINGTON, Feb. 3.—Senator Vilas yesterday presented a substitute for the Nicaragua canal bill, which he gave notice he would offer at the proper time. It provides for a commission to be composed of one member of the engineer corps of the army, a naval engineer and three other citizens of the United States. It is to be known as the inter-oceanic canal commission, and the members are to be paid at the rate of \$500 per month. They will visit and personally inspect the lines or routes projected or which may seem to said board to be sufficiently practicable to demand an inquiry for an inter-oceanic canal to connect the Atlantic and Pacific oceans. They are required to make surveys, etc., to determine the most feasible practical and economical route for the canal. For the purposes of the bill \$1,000,000 is made available by appropriation.

STAMFORD, Conn., Feb. 3.—Mrs. Henry Ward Beecher, who is dangerously ill, was resting easy last night, there being practically no change in her condition.

They said they would not do it for less than \$450 per ton. They complained that Secretary Herbert's report did them an injustice, taking special exception to his estimate of the cost of labor, which the secretary was 40 per cent too low. The secretary was present and defended his report.

Senators Harris and George.
WASHINGTON, Feb. 3.—Senator Harris had a very comfortable day yesterday and is said to be doing as well as can be expected. He is still a very sick man. Senator George is improving and if his condition continues to be better, his physicians hope that he may be taken to his Mississippi home soon.

CHICAGO, Feb. 3.—The grand jury has returned indictments against George M. Cobly for the alleged forging of the signature of E. Miall, commissioner of inland revenue, Canada, and for uttering counterfeit trade marks and labels of a Canadian firm.

STATE CAPITAL BURNED.
Pennsylvania Legislative Halls In Total Ruins From Fire.

HARRISBURG, Pa., Feb. 3.—The Pennsylvania state capital was destroyed by fire late yesterday, the legislative halls are in ruins and a new structure must rise from the ashes that has served as a meeting place of the Pennsylvania legislature since 1822. The flames within the short space of one hour ate up one million and a half dollars worth of property. The inefficiency of the Harrisburg volunteer fire department is generally blamed.

The house was in session and the senate was about to convene when the flames were discovered. The departments in the burned building were the following: Senate and house committee rooms, state librarian's room, senate chief clerk's room, smoking room, barber shop in senate, lieutenant governor's room, room of president pro tempore, school department, house chief clerk's room, speaker of house room, resident clerk's room, two telegraph offices, room of the Harrisburg Legislative Correspondents association, pastor and folder departments, cloak rooms in both branches and the engine rooms. There is talk of finishing the session either in Pittsburgh or Philadelphia.

PRESIDENT JORDAN.
Bold Denunciation of Religious Revivals by Stanford University's Chief.

SAN FRANCISCO, Feb. 3.—President Jordan of the Stanford university, has stirred up orthodox Christians by his bold denunciation of religious revivals, which he declares are a species of intoxication that are no more worthy of respect than common drunkenness. During his remarks he said: "Wisdom means knowing what to do next; science, as well as religion, means telling men how to grow better. Pessimism often comes from insanity. This is the deepest madness. Whiskey, cocaine and alcohol bring temporary insanity, and so does a revival of religion—one of those religious revivals in which men lose all their reason and self control. This is simply a form of drunkenness, no more worthy of respect than the drunkenness which lies in the gutters."

PLATEGLASS TRUST.
Bitter Fight on For Control—Last Year's Earnings.

PITTSBURGH, Feb. 3.—The annual meeting of the Pittsburgh Plateglass company controlling the plateglass factories of the country is in session here. Great interest is manifested in the meeting as there is a bitter fight being made for control. During the past year the net profits were \$725,471.89 which is 7 1/2 per cent on the capital stock.

The earnings of the last quarter, however, were but three-fourths of 1 per cent, or at the rate of but 3 per cent per annum. The decrease is attributed to the great depression in business. During the past four weeks the stock declined from 68 to 50 offered yesterday.

In reply to a question if the selection of a man for the navy had been decided upon, he said: "Oh, no doubt it is practically settled but I have not yet been notified."

VENEZUELAN TREATY

Sir Julian Pauncefote and Senor Andrade Sign the Document.

IT WAS DONE IN OLNEY'S OFFICE.

It Must Yet Be Ratified by Venezuela's Congress Before It Is in Effect—Chief Justice Fuller and Justice Brewer Two of the Arbitrators—The Historic Pen Used in Signing.

WASHINGTON, Feb. 3.—Sir Julian Pauncefote, the British ambassador, and Senor Jose Andrade, the Venezuelan minister to Washington, late yesterday signed the treaty providing for the settlement by arbitration of the long-standing dispute over the boundary between Venezuela and British Guiana, which has not only ruptured the relations between the two principals and kept them apart diplomatically for years, but has threatened to involve the two great English-speaking nations in hostilities. The treaty was completed several days ago, so far as all the details were concerned, except the insertion of one name—a British jurist. Some difficulty had been experienced in

SENOR JOSE ANDRADE.

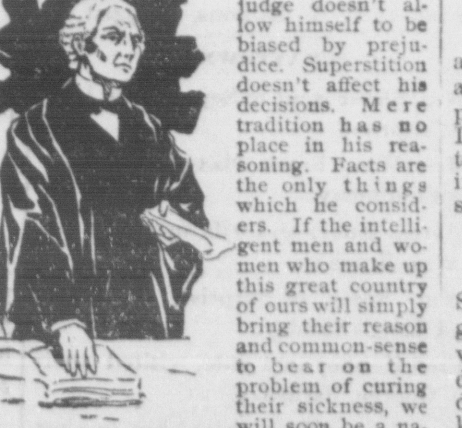

finding the second member of the British supreme tribunal who was willing to assume the arduous task of arbitrator and also could be spared from the bench. Word came over the cable yesterday that such a person had been found in Justice Collins. So all was ready for the signature of the treaty, and Mr. Storow, for Venezuela, called at the state department and arranged a meeting for the signatory persons. Two copies of the treaty had been prepared for signature, both being in English.

Sir Julian and Senor Andrade with their attaches met in Secretary Olney's private office, where the secretary was awaiting them. Mr. Crider and Mr. Bax Irouside made a careful comparison of the two copies and then Sir Julian signed both of them. Senor Andrade placed his name after Sir Julian and Mr. Crider affixed the seals, with the aid of Mr. Blankford, private secretary to Secretary Olney and the treaty was an accomplished fact, save the single act of ratification by the Venezuelan congress.

The signatures were written with a special pen, a beautiful gold holder and nib, tipped with an eagle feather and ornamented with a gold heart studded with diamonds. This was sent from Venezuela for the purpose and will be the property of Senor Andrade, brother of the minister.

The four arbitrators are Rt. Hon. Baron Herschell and Sir Richard Henn Collins on the part of Great Britain, and Chief Justice Fuller and Justice Brewer of the United States supreme court on behalf of Venezuela. The fifth juror is to be selected by the four named or in the event of their failure to agree the fifth is to be selected by the king of Sweden and Norway.

New Extradition Treaty.
BERNE, Switzerland, Feb. 3.—The federal council has submitted to the United States government the draft of a new extradition treaty to supersede the present treaty which permits Swiss citizens to be extradited to the United States contrary to the Swiss extradition laws.

A disinterested and clear-headed judge doesn't allow himself to be biased by prejudice. Superstition doesn't affect his decisions. Merit has no place in his reasoning. Facts are the only things which he considers. If the intelligent men and women who make up this great country of ours will simply bring their reason and common sense to bear on the problem of curing their sickness, we will soon be a nation that will give it power to throw off the germs that exist there. Dr. Pierce's Golden Medical Discovery is designed to do this—that is the theory. The facts are these—tens of thousands of people have used the "Discovery." It used to be sold with the understanding that if it didn't cure, it should be returned, and the money refunded. Nobody ever asked for the money, and so that clause was dropped. Thousands of people have written voluntary letters of thanks to its discoverer. A few of these letters have been included in Dr. Pierce's great thousand-page book, Common Sense Medical Adviser. It used to be sent absolutely free on receipt of 21 one-cent stamps to pay for mailing only. Address with stamp, World's Dispensary Medical Association, No. 606

Neuralgia of the Heart

Vanquished by Dr. Miles' Remedies.

MRS. SIDLEY, of Torrington, Conn., suffered from just such a complication of diseases as the extensive experience and investigations of Dr. Miles have proven, result from impairment of the nervous system. Mr. J. B. Sidley writes Oct. 25, 1895: "My wife was taken sick with neuralgia of the heart, nervous exhaustion and liver trouble. Although attended by two physicians she grew worse, until she was at death's door. I then began giving her Dr. Miles' Restorative Nervine and Dr. Miles' New Heart Cure, and she improved so wonderfully from the first that I at once dismissed the physicians. She now eats and sleeps well and does her own housework. We have recommended your remedies to a great many in our city, and every one has been very much benefited by them."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee. First bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants.

And the great Empire state may be left without a representative in McKinley's cabinet.

The Detroit Free Press recommends the renewal of the whipping post as punishment for minor offenses.

LYMAN J. GAGE cannot be accused of beating round the bush in his statement of what he proposes to do as secretary of the treasury.

The bill to prohibit football in the state is meeting with favor even among a great many college students who would be expected to be against such a measure.

The committees in the legislature are doing good work in killing bills before they come up for action by that body. Our legislators can do as good work for the state by killing unworthy bills as by enacting laws of value.

It is said that McKinley will recommend to congress the creation of a new cabinet position to be known as the department of commerce. At present all that is done through the commissioner of navigation in the treasury department.

The numerous bills before the legislature to increase the number of judicial circuits are not popular with the people in general. They look upon the increased expense to the taxpayers as not necessary and especially at this time.

The junketing trips to the several institutions of the state will come to an end after this legislature. It is well known that the real knowledge and workings of these legislative committees and that their visitations has usually been a farce. Another and a better arrangement will be made in all probability.

The bill to provide county homes for dependent children is one that will commend itself to many people. It is proper and right to make the very best citizens possible out of those who are unfortunate enough to have no homes of their own. To care for the dependent children properly the reformatory and penal institutions of the state would become less crowded in another generation.

There is a strong sentiment against the cigarette evil in this state and the legislature has the benefit of public sentiment in behalf of any legislation looking towards the restriction or prohibition of the sale and use of cigarettes. The bill however, as it passed the house is probably not wise in all its provisions and should be amended.

Cascarae stimulate liver, kidneys, and bowels. Never slacken, weaken or gripes.

The republicans of Jackson county can not be well pleased with the arrangement to have Jackson and Washington counties compose a senatorial district. It is fair to both parties to leave Jackson and Lawrence together. A better arrangement can and ought to be made before the proposed bill becomes a law.

The appointments for cabinet positions already made by McKinley strengthen the opinion that he is equal to the situation which confronts him as the nation's chief executive. They are all able men selected with reference to their fitness for the position they are to fill. This has raised the president elect in the estimation of his countrymen and given them confidence that his administration will be marked by the same ability and careful foresight.

The building and loan associations of Indiana have become practically the savings banks of the people. The necessity for putting about them proper safeguards to protect the people from certain abuses which are now made under the pretext of by-laws is very urgent. But the legislature must not act hastily and thus jeopardize the interests of associations which are doing a legitimate business. Every bill before the legislature should receive the closest scrutiny and most careful consideration by our law makers.

The non-state school men are decidedly in evidence at Indianapolis this week. They are demanding so very important amendments to the general educational bill now pending. These men recognize the objectionable features pointed out by the Republicans at different times. The friends of the measure never seemed to realize that there was a formidable opposition until this week. They were not inclined to want to make any concessions until yesterday. Now they have concluded that the non state school men have some influence and are ready to at least give them a respectful hearing.

GAGE'S GREAT ABILITY.

How He Got Ahead of New York Bankers.

The selection of Lyman J. Gage, of Chicago, to be Secretary of the Treasury, while not at all agreeable to the professional politician, is well received by all those who desire to see the Treasury Department wisely and ably administered. Already stories of some of Mr. Gage's clever achievements in life are being related, and one showing how he got ahead of the New York bankers in 1894 is worth repeating. It was just when gold was going out of the country at a pretty lively rate and banks were calling in the loans, expecting a great financial crisis. The Chicago banks, Mr. Gage's being foremost of the number, had something like \$25,000,000 on deposit in New York for exchange purposes. They desired to withdraw a large share of this, and accordingly asked their New York correspondents to remit something like \$16,000,000 of the amount deposited. They did not ask for gold—merely that the New York banks send them the currency.

But true the instincts of New York bankers they wrote their Chicago brethren asking them to accept clearing house certificates in lieu of the currency. This the Chicago men refused to do, and thus the matter was at a standstill, the New Yorkers declining to remit the currency. The Chicago men were in a quandary, and held a meeting to decide upon a plan of action. The matter was left with Mr. Gage, all having confidence in his ability to get the money. And that confidence was not misplaced, for what did Mr. Gage do but order \$15,000,000 in gold from Europe, paying for the same with drafts on New York.

When it was announced in the newspapers that Chicago banks were receiving large shipments of gold direct from Europe the New Yorkers could not imagine how it had been done.

They could not see why Chicago should ship this gold direct instead of allowing their New York friends a chance to rake off one quarter of one percent for conducting the correspondence. But the New Yorkers found out how it had been done when the drafts began to come in, and they had to buy the gold from Chicago with which to pay the drafts. The New York bankers were very indignant at what they called such "reprehensible methods of doing business," and intimated that, in the language of the knights of the green cloth, Mr. Gage had not "played above the board." However that may be, the transaction opened the eyes of the New Yorkers, and they readily agreed that Mr. Gage was a man to be reckoned with in all future transactions.

An Insult to Patriotism.

FOR THE REPUBLICAN.

It is now nearly thirty-two years since the surrender at Appomattox and now comes a bill to reimburse something. Here is the matter referred to:

Representative Cox, of Tennessee, yesterday introduced a bill, of which the first section follows: Whereas on the 10th day of April, 1865, the Army of Northern Virginia, commanded by Gen. Robert E. Lee, surrendered to the Federal army commanded by U. S. Grant at Appomattox, in the State of Virginia, and by the written terms of said surrender, artillery and cavalry officers were permitted to retain their horses, sidearms and baggage, and private soldiers their horses belonging to them. After said surrender and after said soldiers were paroled and were on their way to their respective homes, Federal soldiers under orders in violation of the terms of the surrender, by force took from said paroled officers and soldiers their horses, baggage, and sidearms, which were never returned to them. Two hundred thousand dollars is appropriated by the bill to reimburse the Confederate soldiers or their heirs, of such violation of the agreement.

I don't believe it is true. If the congressman from Tennessee is correct in his statement, this should have been attended to long ago. It looks a little strange upon the face of it, and if he is mistaken censure him at once.

IT WAS A SLOW DAY

Little Business of a Final Nature Transacted by the Legislature.

LEGISLATIVE JUNKETING BILL.

It Becomes a Law So Far as the Senate Is Concerned—Duncan's Bill for Auditing Court Accounts Fails For Want of a Constitutional Majority—House Pharmacy Bill.

INDIANAPOLIS, Feb. 3.—Little business of a final nature was transacted by the legislature Tuesday, though the house engaged in two important discussions, one upon a general pharmacy bill and the other upon the labor arbitration bill. Both were upon second reading and though very strong efforts were made to load each bill up with amendments these were fought off and the bills went through to engrossment practically as they were drawn by their authors. Some important house bills died upon committee reports in the morning. Among them were the Nicholson primary election bill and the bill to oust Superintendent Johnson of the feeble-minded school.

The senate spent some time in discussing a contributory negligence bill which was finally advanced to engrossment and indulged in another long discussion upon Senator Houghton's bill to make the diplomas of other colleges then the State Normal school good for life license after teaching for eight years, which was finally killed. It passed the House bill for a visiting committee to do away with legislative junkets. Senator Duncan's bill providing for the appointment of an auditing board by the circuit court to audit the accounts of township trustees failed to pass the senate for want of a constitutional majority, the bill receiving 28 affirmatives and 20 negative votes. This does not kill the bill and it can be called up for passage at any time.

Bill May Not Pass.

INDIANAPOLIS, Feb. 3.—There is some doubt as to the Republicans being able to get their apportionment bill through the house, where they have 53 votes and it requires 61 to pass a bill. There were 17 absent from the caucus and it is said 3 of these will vote against the bill as they believe their counties were unfairly treated.

Prison Boards.

INDIANAPOLIS, Feb. 3.—The joint Republican caucus Tuesday night decided to restore the appointment of the prison boards to the governor and that the boards should be non-partisan.

Failed to Oust Johnson.

INDIANAPOLIS, Feb. 3.—The bill to oust Alexander Johnson, superintendent of the feeble-minded school, was killed Tuesday by the house on committee report.
